g. Accepting the _____

MEDITATION PROCESS:

1. Ground the client.

2. Have the client find him/herself in a beautiful meadow.

3. Have the client see that out in the horizon there are thousands of bubbles of light that represent all his/her possible futures.

4. Have the client start noticing the brightest light, and with the Law of Attraction, what he/she focuses upon expands. As the client does this, all the other bubbles

pop, and this bright light floats down to the center of the Earth, and out walks the client. It is his/her Future Self.

5. Have the client feel the love. Have the client feel the peace. Have the client sense the joy and success all around him/her.

6. Have the client see all aspects of his/her life: Spiritual, Physical, Financial, Career, Emotional, Mental, Social, and Relationships.

7. Have the client step forward into time and space and connect with this part of him/her – this wise Future Self.

8. His/her Future Self has a gift for the client.

9. Have the client feel this Future self-giving him/her the energy that he/she is experiencing, so that he/she can take it back to the present reality.

10. Have the client come back gently into the room.

11. Tell the client to open his/her eyes, take a big deep breath and stretch – a big, but gentle, stretch – and relax. Tell the client to shake it out a little bit and feel him/herself here. Have the client sense his/her feet on the ground and look around at all the colors. Tell the client to look around at the aliveness and the beauty all around him/her.
